EVAP-1 Product Highlights

EVAP-1 is a new generation hygienic coil cleaner designed to purify the coil as it cleans.

This proprietary quaternary ammonia compound formula will help open up restricted air flow due to build up in the coil surface, advance heat transfer, reduce head pressure and optimize system capacity when the condenser and evaporator coil are cleaned on a regular preventative schedule.

This specialized coil cleaner helps improve the indoor air quality and aids in the breakdown in cold water slime in the pan and condensate line when rinsed off the coil through condensation.

Use EVAP-1 on:

- Evaporator Coils
- Refrigerator Units
- Electronic Filters
- Condenser Coils
- Registers
- Squirrel Cage Blower & Fan
- Condensate Pan
- PTAC Style Units
- Window Units, Kitchen Vents & Grease Filters

No Rinse Formula

Optimizes System Capacity

Enhances IAQ

Non-Acid Cleaner

KEEP OUT OF REACH OF CHILDREN. WARNING: SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY AND FIRST AID STATEMENTS.

NET WT. 19 OZ. (1 LB. 3 OZ.) (538 grams)

Directions For Use

Read Material Safety Data Sheet before using.

- STEP 1. Turn off A/C Unit prior to using.
- STEP 2. Shake EVAP-1 well prior to using.
- STEP 3. Coat the entire surface positioning can 6 to 8 inches from surface.
- STEP 4. Let EVAP-1 dwell for up to 5 minutes depending on severity of buildup on the surface to be cleaned. Watch EVAP-1 breakdown dust, dirt, grease etc. while the expanding foam begins to work.
- STEP 5. Turn A/C Unit On, no rinsing is required on the evaporator coil. On the condenser coil a final water rinse is required. Make sure to rinse the entire surface removing all EVAP-1 from the applied area.

Precautions:

WARNING: Contains 2-Butoxyethanol (CAS#111-76-2), Isopropanol (CAS#67-63-0), Liquid Petroleum Gas (CAS# 68476-86-8). Eyes: If in eyes, flush eyes with water immediately and call a physician.

Skin: If on skin, flush skin with water immediately.

Ingestion: If swallowed, drink egg whites, gelatin or large quantities of water. Call a physician immediately.

Storage and Disposal:

Do not contaminate water or food by improper storage or disposal. Container cannot be reused. Wrap up container completely and place in dumpster.
