

Thread Rebuilding Penetrant utilizes nano technology to do what no other liquid penetrant can do. Finally science meets practical application to resolve one of industries biggest problems. How can you disassemble equipment when the threads have been damaged? In the past this task required a cutting torch or a drill out of nuts & bolts. Now Spin Off will rebuild the threads on a molecular level to allow for complete disassembly.

Just spray & turn and let Spin Off do the rest.

Use On:

Pipe Threads • Bolts • Nuts • Drill Collars • Connections

Directions For Use:

1. Shake can well prior to use
2. Spray on damaged thread area
3. Begin disassembly. Depending on thread damage multiple applications may be required between turns. Continue to spray and turn until equipment is disassembled.
4. If clean-up is required use Flush Monkey an industrial safety solvent or a close equivalent.

Read SDS before using

Precautions:

Contents under pressure. Do not spray near heat, sparks or open flame.
Do not puncture, incinerate or store above 120°F. Avoid prolonged exposure to sunlight. Containers heated above 120°F may burst.

Available for sale throughout the US

HMS Rating / Health: 1 / Flammability: 1 / Reactivity: 0 / Personal Protection: None

Thread Rebuilding Penetrant

Reconstrucción Penetrante Del Hilo De Rosca

Eco Friendly Formula

No Torch/No Drill Formula/No Problem

Just Spray & Turn

Utilizes Nano Technology

No More Cheater Bars

Keep Out Of Reach Of Children

Mantener fuera del alcance de los niños

CAUTION: Contents under pressure see side panel for additional precautions

PRECAUCIÓN: Cotenants bajo presión ver panel lateral para las precauciones adicionales

Net WT. 10.5 OZ (298 grams)
