

CLEAN & SWIRL

ENZYME POWERED

Toilet Cleaning System

Cinnamon Spice

CLEAN & SWIRL Toilet Cleaning System will clean, maintain and refresh toilets for up to 30days. Each time the fixture is flushed, a pre-measured amount of chemical compounds, enzymes and powerful cleansers are released that descale, delime, deodorize and maintain the toilet and drain lines. **CLEAN & SWIRL** is enzyme powered and will attack fixture orders two ways: by removing the source of the order, uremic salts that accumulate in the drain, and by dispensing a mild pleasant scent. **CLEAN & SWIRL** also helps keep the drain lines clear and free-flowing by depositing a micro thin coating that seals and protects, and by releasing an enzyme that digests organic materials. **CLEAN & SWIRL** lasts an average of 30 days, under normal conditions, due to its unique design that protects the chemical block from excessive erosion caused by rushing water as well as debris dropped into the fixture.

Directions for Use:

Clean the fixture, then place the **CLEAN & SWIRL** on the toilet rim with the exposed face of the chemical block facing towards the fixture. **CLEAN & SWIRL** should not be placed so it is completely submerged in water as this will drastically cut down its effective life. Replace when the chemical block is depleted.

Caution:

Mild eye and skin irritant. Harmful if swallowed. Causes eye and skin irritation. Do not get in eyes, on skin, or on clothing.

Keep Out Of Reach Of Children

First Aid:

If Swallowed – Do not induce vomiting. Drink large quantities of water and get prompt medical attention.

If in Eyes – Flush with water for about 10-15 minutes. If irritation persists, contact a physician.

If on Skin – Wash off with soap and water. If irritation persists, contact a physician.
