

MATADOR is recommended for exterior cleaning of redi mix trucks and other concrete and masonry equipment.

This product produces a rich clinging foam that is easily applied to built-up areas. The clinging foam allows **MATADOR** to stay where you need it—on unwanted concrete accumulations. There's no wasteful runoff and **MATADOR** can be diluted with up to four parts water for greater economy.

Corrosion inhibitors reduce attack on metals. **MATADOR** will not bleed or oxidize sound paint. The advanced foaming action of **MATADOR** gives extended contact time for better penetration and more effective cleaning.

DIRECTIONS

MATADOR should be diluted 1:4 with water depending on the severity of contamination. Allow sufficient time and then brush and rinse, or pressure rinse. Reapply to stubborn deposits.

- **SUPERIOR DWELL TIME**
- **VISCOUS FOAMING SOLUTION**
- **SAFE ON MOST METALS**
- **DILUTABLE FORMULATION**
