Drill Tek Thread & Joint Compound

Sets the standard for durability & stability under adverse conditions. This specialized oilfield compound protects against severe circumbient makeup downhole through raising the coefficient of friction during extreme workload conditions. Fortified with rust and oxidation inhibitors along with specialty stabilizers to safeguard against H2S contamination downhole.

Drill Tek prevents leakage of API round thread casing and tubing joints under pressure as high as 10,000 PSI. Safe to brush on pipe joints in cold weather.

Warranty

Encore Industrial Products, LLC warrants our product to be free of manufacturing defects. Liability for product proven defective, if any, is limited to replacement of defective product or refund of the purchase price paid for the defective product as determined by Encore Industrial Products, LLC. No other warranty or guarantee of any kind is made by Encore Industrial Products, LLC expressed or implied, statutory, by operations or law or otherwise including merchantability and fitness for a particular purpose.
