

## How to Use for Drain Maintenance:

Reduces biological and chemical oxygen demand by up to 80 percent within one week of continual use.

### Drain Line:

Sink disposal, urinals, toilets, floor drains, cleanouts, grease traps, tubs, showers, condensation lines, ice machine drain lines, and water fountains.

Pour Primo Zyme directly in the drain line opening. Use on a regular basis to reduce organic solids by synthesized consumption

### Application Amount

Drain Line	Quantity	Drain Line	Quantity
2"	2 oz.	6"	16 oz.
4"	8 oz.	10"	20 oz.

**Application Frequency:** Use on a regular basis for best results.

### Septic Tanks/Holding Tanks/Dump Stations:

**Septic Tanks:** For initial treatment use 16 oz. per 25 cubic feet capacity. For weekly maintenance pour 8 oz. directly into toilet and flush. For clogs/odors, pour 12 oz. directly in clean out.

**Holding Tanks:** Use 2 oz. per gallon of water in holding tank. Primo Zyme starts the consumption process upon contact on grease, food by-products, urine, fecal matter, water slime, organic waste, suspended solids, etc.

**Lagoon/Pond/Usage:** Use 4 gallons per 1 million gallons of water containment or average water flow through for the first two weeks. Continue treatment of up to two gallons every day per 1 million gallons of water per desired results.

### How to Use for Odor Control:

Spray or mop Primo Zyme directly on the source. Make sure that the entire surface is covered for optimum results

**P.I.N. B-100 G**

**NET CONTENTS: 1 U.S. Gallon**

# Primo Zyme

## The Ultimate Odor and Maintenance Solution

**La última solución de mantenimiento y olor**

*Contains 600 Billion Enzyme Producing Bacteria Per Gallon*

*Contiene 600 Billones Bacterias Productoras de Enzimas*

- **Safe to use** • **Nature's ultimate tool**
- *Seguro Para Usar* • *Instrumento de la Naturaleza*
- **Performs well in adverse conditions**
- *Realiza muy bien en condiciones adversas*
- **Can be used before or after chlorine disinfectant or acid detergent sanitizers**
- *Se Puede Usar antes o despues de Cloro Desinfectante o Acido Detergente Desinfectante*

## Micro Energized Bacteria Biological Odor Neutralizer

**Micro Bacterias Energizadas Neutralizador de Aroma**

**Neutralize Odors at the Source**

**By Organic Synthesized Consumption**

**Neutraliza Aroma Por Consumo Organizo Sintetizado**

**CAUTION: Keep out of reach of children.**

**See side panel for additional precautions and First Aid.**

**PRECAUCIÓN: Mantener fuera del alcance de los niños.**

**Ver panel lateral para tomar precauciones y primeros auxilios.**

### General Use and Floor Care:

Spray or mop Primo Zyme directly on the source. Make sure that the entire surface area is covered for optimum results.

**Mop Solution:** Use 16 oz. per gallon of warm water.

**Space Spray:** Spray directly on or around problem area.

**Carpet:** Vacuum/clean area before application. Shampoo – Use 16 oz. per gallon of water. Bonnet method – Use 16 oz. per gallon of water or per tank. Direct Application – Use undiluted spray directly on surface for concentrated application. Do not remove. Allow to air dry.

**Vehicles/Appliances/Upholstery:** Use undiluted spray directly on surface for concentrated application to remove odors from mold, mildew, smoke, food and animal. Do not remove. Allow to air dry.

### FIRST AID

Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible). If Inhaled: Allow breathing of fresh air. Allow the victim to rest. If On Skin: Remove affected clothing and wash all exposed skin area with mild soap and water, followed by warm water rinse. If In Eyes: Rinse immediately with plenty of water. Obtain medical attention if pain, blinking or redness persist. If Ingested: Rinse mouth. Do NOT induce vomiting. Obtain emergency medical attention.

### Precautions for Safe Handling

Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapour.
