

LOCK & FLOW

TIME RELEASE "LOCK IN PLACE" CONDENSATE TABLET

- Contains quaternary compound
- Lasts up to 180 days depending on condensate flow
- Does NOT degrade condensate pans

YELLOW - 1 TO 7 TON AC UNITS

BLUE- 10 TO 20 TON AC UNITS

These state of the art tablets are the ultimate answer to drain flow problems. Lock & Flow time release condensate tablets last up to 180 days depending on the condensate flow. Formula enhanced with quaternary ammonia compound. Once the tables come into contact with the liquid condensate, a chemical reaction occurs causing the tablet to lock into place so the tablet does not float and become lodged in the drain line opening. Contains NO Bromine or Chlorine which can cause rust and oxidation of the condensate pan. Use on a regular basis to keep your drain lines open and free flowing and free of cold water slime.
