

BATTERY SKIN

BATTERY POST & TERMINAL COATING

PRODUCT HIGHLIGHTS

- PREVENTS CORROSION**
- RESISTS DUST & DIRT BUILD UP**
- EXTENDS BATTERY POWER LIFE**
- SETS & DRIES QUICKLY**
- RESTORES DAMAGED WIRE INSULATION**
- WEATHER PROOFS CRACKED/DAMAGED WIRES**
- HELPS MAINTAIN STEADY CURRENT FLOW**
- RESISTS SHOCK AND VIBRATION**

This specialty coating protects all exposed battery components subject to corrosion and moisture failure. Use **BATTERY SKIN** to protect all types of batteries and parts: heavy industrial, marine, oil field, fleet, rolling stock, material handling, and stationary equipment batteries. Battery Skin extends the battery service life of all your essential equipment.

USE ON: Batteries, Terminals, Battery Posts, Solder Battery Terminals, Angle & Elbow Lugs, Bi-Metal Battery Terminals, Heavy Wall Lugs, Side Mount Terminal & Bolts, and Cracked/Damaged wiring insulation Cables, Housing, Battery Trays, Brackets, ETC.
