

PRODUCT HIGHLIGHTS

CITRA LIFT Organic Lift Station Degreaser floats on top of the water in lift stations. As the water level moves up and down, the fat and grease accumulation along the side walls of the lift station are scrubbed.

CITRA LIFT is safe to use in and around the waste water treatment systems because it does not alter the delicate balance of existing biological sewage treatment process.

Knock down foul odors in and around lift stations through regular scheduled use.

DIRECTIONS FOR USE

Regular Applications:

Pour CITRA LIFT in life station until a 2" to 4" layer is achieved.

Heavy Accumulations:

Pour CITRA LIFT until a 6" to 8" layer is achieved.

P.I.N. - I 230

For Professional use only
