

This two part cleaning system is designed for the most challenging industrial and commercial cleaning jobs.

Part A cleans deep down to renew embedded stains and petroleum based residue from industrial / commercial floors and equipment.

Part B revives the surface to help bring back the renewed surface appearance by removing virtually all of the grease, mud, petroleum, and food build up. Duo Clean Part B also brightens and works to restore surface to original appearance.

**CAUTION:** Contains sodium hydroxide.

It is recommended that protective eyewear and long-sleeved clothing be worn while using this and all cleaning products.

## Directions for Use

Always Test Surface Area to Ensure Material Compatibility.

Step 1 Part A – Wet the surface area to prepare the surface for cleaning.

Apply a liberal amount Duo Clean Part A to surface and let product sit for 5 minutes. If there is heavy build up, scrubbing or brushing may be necessary.

Rinse with presser washer or hose.

Step 2 Part B – Wet the surface area to prepare the surface for cleaning.

Apply a liberal amount of Duo Clean Part B to the surface to revive and renew, let product sit for 5 minutes. If there is heavy build up, scrubbing or brushing may be necessary.

### FIRST AID PROCEDURES:

**INTERNAL (INGESTION):** Do not induce vomiting. If person is conscious, have them drink large quantities of water or milk, get immediate medical attention.

**INHALATION:** Remove to fresh air. If breathing is difficult, give oxygen. If breathing stopped, give artificial respiration. Get immediate medical attention.

**EYES:** Flush immediately with plenty of water for at least 15 minutes, keeping lids apart. Get immediate medical attention.

**SKIN:** Flush immediately with plenty of water for at least 15 minutes. Remove contaminated clothing and flush exposed skin with water. Get immediate medical attention.
