

GREEN DRAGON

Liquid High Heat Ice Melt

- ICE MELT AND DUST CONTROL
- IMPROVES PERFORMANCE AND LONGEVITY OF SOLID ROCK SALT AND SAND WHEN APPLIED PRIOR TO THEIR USE
- FOR USE ON PARKING LOTS, ROADWAYS, SIDEWALKS, OR OTHER FOOT TRAFFIC AREAS
- EFFECTIVE IN TEMPERATURES OF -60 ° F
- USE IN SUMMER MONTHS TO CONTROL DUST ON GRAVEL ROADS

KEEP OUT OF REACH OF CHILDREN

NET CONTENTS: ONE GALLON (128 fl. oz.)

Sold By:

Encore Industrial Products, LLC.

activity: 0

chloride/10043-52-4; Potassium Chloride/7447-40-7; Sodium Chloride/7647-14-5;

5

DESCRIPTION: GREEN DRAGON is the economical way to stay ahead of winter storms to ensue and vehicle traffic. When used as a pre-treatment, GREEN DRAGON will prevent the bonding and other surfaces which will make mechanical clearing much more efficient. With efficacy does is also extremely effective at melting already present snow and ice on a multitude of surfaces. This product may also be used in warmer weather to help control dust on gravel roads. By blowing air, it helps to keep dust down.

SUMMER DIRECTIONS: Use 0.25 - 0.45 gallons per square yard to suppress dust on gravel and will draw moisture from the air to keep road surfaces constantly damp, even in arid environments hard and compact road surface, and because it penetrates into the road base, it will also contribute to depressing the freezing point of the moisture in the road surface, it will help minimize frost heave.

WINTER DIRECTIONS:

USAGE AND APPLICATION RATES:

- 1) ACCELERATOR** - Significantly improves the performance and longevity of solid rock salt. **Application:** 0.5 Gallons/1000 square feet. Adjust dilution depending on requirement.
- 2) ANTI-ICER/PRE-WETTER** - Spray on pavement before precipitation begins. **Application:** 0.5 Gallons/ 1000 square feet. Adjust dilution depending on requirement.
- 3) DEICER** - Effective deicer when applied on top of snow and ice. On glazed ice it may be surface in several places before applying to allow penetration and to prevent run-off. Monitor be necessary in extreme conditions.

Recommended Application: Near 32° F on thin ice use 1.0 - 2.0 gallons/1000 square feet. 6.0 gallons/1000 square feet.

TEMPERATURE	PRODUCT	WATER
-60° F	1	0
-30° F	7	1
-10° F	3	1
+10° F	1	1
+20° F	1	2

As with all deicers, use only on properly placed and cured concrete. Do not use on porous concrete less than one year old. The cycle of freezing and thawing by natural weather elements or concrete. The use of an ice melt increases these cycles and are factors over which we have porous brick, mortar joints, flagstone and pre-cast or pre-stressed concrete is not recommended harmful when applied directly to trees, shrubs, flower beds or grass. Remove any melt vegetation area. Ice melting agents that are applied at much greater rates than recommended tracking or footing, and may cause tracking indoors. Use of this ice melter is at the consumer's

Use only.
 See Safety Data Sheet.
