

CORE GUARD EL

FOAMING WIRE ROPE TREATMENT

- Fortified With Molybdenum Disulfide
- Ultra High Temp In Service Rating to 400F
- Performs Under Extreme Pressure Service Loads
- Core Protection To Increase Cable and Wire Rope Life
- Resistant To Water Washout
- Developed For Onshore/Offshore Extreme
- Element Protection

PRODUCT HIGHLIGHTS

This proprietary formula creates a unique thick foam that breaks the surface tension as the foam breaks for deep penetration. CORE GUARD EL provides supreme protection from friction and corrosion. Performs under extreme service conditions which can extend the service life of equipment. Use CORE GUARD EL on a regular maintenance schedule basis for optimum protection and performance.
