

ELECTRIC RED

DURABLE PROTECTIVE COATING

SUPERIOR INSULATING FILM

- PROTECTS AGAINST MOISTURE
- HIGH ARC RESISTANT
- DRIES FAST IN 10 MINUTES
- DRIES TO FLEXIBLE FILM
- CREATES A TACK FREE VARNISH FILM
- VERSATILE DIELECTRIC STRENGTH
- RESISTS ACIDS AND OILS
- SEALS OUT DIRT
- CHIP/CRACK RESISTANT FILM
- LEAVES A GLOSSY FINISH

Protects and Insulates motor windings and electrical components. Electric Red is an extremely durable coating that dries to a high gloss finish. When sprayed in thin coats, Electric Red can yield up to 18 SQ.FT.

PRODUCT HIGHLIGHTS:

Class F Electrical/Winding Coating

Dry Dielectric Strength – 1400 Volts per 1 mil thickness

- Motor Windings
- Field Coils
- Electrical Connectors
- Buss Bars
- Armatures
- Switchboards
- Magnet Coils
- Commutator Ends
- Electronic Parts
- Transformers
- Stator Windings
