

# MATADOR

## HEAVY DUTY ACIDIC FOAM

**SUPERIOR DWELL TIME  
VISCIOUS FOAMING SOLUTION  
SAFE ON MOST METALS  
DILUTABLE FORMULATION**

MATADOR is recommended for exterior cleaning of redi mix trucks and other concrete and masonry equipment. This product produces a rich clinging foam that is easily applied to built-up areas. The clinging foam allows MATADOR to stay where you need it - on unwanted concrete accumulations. There's no wasteful runoff and MATADOR can be diluted with up to four parts water for greater economy. Corrosion inhibitors reduce attack on metals. MATADOR will not bleed or oxidize sound paint. The advanced foaming action of MATADOR gives extended contact time for better penetration and more effective cleaning

*SIZES AVAILABLE: 5, 20, 30, & 55 GALLONS*
