

TOWER GUARD

SCALE & CORROSION INHIBITOR FOR COOLING TOWERS

The scale and corrosion inhibitor is specifically formulated for open recirculating cooling water systems in areas of high hardness, high alkalinity scaling waters. It contains a strong calcium carbonate crystal modifier, which prevents calcium carbonate deposition, along with a yellow metal protectant. Contains a polymer designed to inhibit scale and deposition in a wide variety of aqueous systems.

Obtain special instructions before use. **Do not handle until all safety precautions have been read and understood.** Do not breathe mist, spray. Wash thoroughly after handling. Wear eye protection, protective clothing, and protective gloves.

Sizes Available: 20, 30, 55 Gallon Drums
