

# UPTIME EP

## HIGH TEMP SPRAY GREASE

- **Ultra High Temp in Service Range from -45 to 600F**
- **Resists High Speed Throw-Off**
- **Resistant To Water Washout**
- **Sprays Thin/Sets Thick**
- **Performs Under Extreme Pressure Service Loads**

*This unique product is ideal for equipment that requires lubrication in grease form but does not have a zirc fitting (grease nipple). UPTIME EP delivers superior lubrication in a flexible spray form to prevent corrosion, oxidation, and seizing of fitted parts of all kinds. Fantastic adhesive and cohesive properties. UPTIME EP is designed to stay in the surface area where applied*
